

Carnage & Glory II

What:

The Battle of Borodino September 7, 1812

When:

September 8-10, 2022

Players should plan to arrive at the venue Thursday evening, but no later than Friday morning, 0800 hours.

The game will be played on three tables, the Redoubt with twelve players, the Fleches with eleven players and Utitsa with six players. In addition to the tabletop players, we will also have two individuals assigned to the roles of Napoleon and Kutusov. Play will commence on Friday at 0900 hours and end Saturday at 2100 hours. Each day will include ten hours of gaming with breaks for both lunch and dinner.

Command allocation will be decided prior to the game start, and we recommend that players liaise with one another prior to the event to determine commands and tactics.

Maps and OoBs will be distributed in advance to facilitate this.

To speed up play commands will be initially setup to reflect the historical placement of forces as they would have been at the actual battle.
